Part I: NLS Network Libraries and Machine-Lending Agencies .....

Part II: Other Library Resources at the National Level .....

Appendix I: Readership — NLS Network Libraries .....

Appendix II: Circulation — NLS Network Libraries .....

Appendix III: Budget, Staff, Collections — NLS Network Libraries .....

National Library Services

A free national library service providing recorded and braille materials to blind and physically handicapped persons is administered by the National Library Service for the Blind and Physically Handicapped, Library of Congress (NLS). With the cooperation of authors and publishers who grant permission to use copyrighted works, NLS selects and produces full-length books and magazines in braille and on recorded disc and cassette. The reading materials produced are then distributed to a cooperating network of regional and subregional libraries that circulate them to eligible borrowers by postage-free mail. Network libraries also offer reference, readers' advisory and other services.

Established by an act of Congress in 1931 to serve blind adults, the program was expanded in 1952 to include children, and again in 1966 by Public Law 89-522 to include individuals with physical impairments that prevent the reading of standard print. Fifty-six regional and 103 subregional libraries are currently part of the network, serving all parts of the United States, Puerto Rico, the Virgin Islands, and Guam.

Playback equipment is loaned free for use with books and magazines recorded on disc at 8 and 16 rpm and on cassette at 1-7/8 and 15/16 ips. Accessories supplied on request include headphones, pillowphones, remote control units, and special amplifiers. Libraries and other designated machine-lending agencies serve as distribution points for playback equipment and accessories.

Applications for library service from eligible persons or institutions such as hospitals and nursing homes are made directly to the network library or machine-lending agency serving a particular geographic area. Application forms, demonstration equipment, and sample reading materials are available in many local public libraries.

American citizens temporarily living abroad receive service directly from NLS and should apply to the Consumer Relations Section. International interlibrary loans may be arranged with NLS; however, direct service is not extended to individuals outside the United States, its territories and possessions unless they are American citizens.

Music services are provided by the NLS Music Section which has an extensive collection of music scores, books, and instructional materials in braille, large type, and recorded media. Through its Reference Section, NLS serves as a national information resource on various aspects of handicapping conditions. The National Library Service also functions as a bibliographic center on reading materials for handicapped people and can make referrals to libraries and organizations that have materials in special media.

All libraries and machine-lending agencies that are part of the NLS network are listed in Part I of the directory.

A number of not-for-profit organizations and volunteer groups which are not part of the NLS network also provide reading materials in special media on loan to handicapped indi-

Contents

viduals. These organizations are listed in Part II of the directory. Criteria for inclusion in Part II are: services offered nationwide; a book collection sufficiently broad in subject matter to be of general interest; a minimum of two hundred titles available on loan; and circulation on the basis of free loan or for a minimal fee to cover basic costs. As additional organizations meeting these criteria become known, they will be included in future editions of the directory.

How to use the directory

Part I of the directory is arranged alphabetically by state. Within each state the regional library appears first, followed by subregional libraries (if any) listed alphabetically by city. In several states two regional libraries have been established; in these instances, the specific service area of each library is shown.

Regional libraries that also function as machine-lending agencies are identified by an asterisk (*) immediately following the name of the library. Separate machine-lending agencies (if any) are listed as the final entry for a state.

The information contained in the body of Part I of the directory and in Appendix III was provided by each network library and machine-lending agency in response to a questionnaire circulated in November 1985; readership and circulation statistics in Appendixes I and II are for federal fiscal years (October-September) 1984 and 1985. In the few cases were responses were not received or information was not available, data from the previous edition of the directory has been reprinted and footnoted. An effort was made to record changes in names, addresses, and telephone numbers up to April 1986.

Part II is arranged alphabetically by the name of the organization. Each entry indicates eligibility requirements, special media available, number of titles in the collection, subject coverage, and lending policies, all of which may vary from one organization to another.

Requests for catalogs or further information about services listed in Part II should be addressed to the appropriate organization and not to the National Library Service for the Blind and Physically Handicapped or its cooperating network libraries.

[1]Figures are adjusted to nearest 100. Units are containers (recorded disc and recorded cassette) and volumes (braille) for both books and magazines.
[2]Less than 50.
[3]Libraries listed are regional libraries, and totals include circulation for their subregionals.
[4]Information unavailable for FY 1985; FY 1984 totals have been substituted.
[5]Information unavailable.
[6]All direct circulation magazine statistics include *Talking Book Topics* and *Braille Book Review*.
[7]Totals for recorded disc include circulation for flexible disc.
N/A—not applicable.
